1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Mueller on 8/27/10.

In the specification on page 6 line 7 "2" has been changed to --2A-C--, line 9 "3A" has been changed to --3A-B--, line 14 "4A" has been changed to --4A-B--, line 19 "5A" has been changed to --5A-B--; on page 7 line 14 "14" has been changed to --14A-E--, line 16 "15" has been changed to --15A-E--, line 18 "16" has been changed to --16A-E--; page 8 line 5 "22" has been changed to --22A-C--.

1. The following is an examiner's statement of reasons for allowance: In addition to the remarks of record, the cited prior art fails to teach or suggest the claimed interference surfaces having a portion non-parallel to a longitudinal direction of the recess (e.g. claim 1), a plurality of interference surfaces (e.g. claim 6) or an interference surface comprising a plurality of pins projecting downward. At best the cited prior art teaches an interference surface that is a single parallel surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LYLE A. ALEXANDER whose telephone number is (571)272-1254. The examiner can normally be reached on Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jill Warden can be reached on 571-272-1267. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
